“Final stage – Champions League for Clubs

Porto di Catania 20-21-22 September 2019

Catania, a city of history and culture

Roberto Vigliani

Catania, in the beautiful island of Sicily, is ready to host this great Canoe Polo event.

The mild climate will allow you to enjoy the island, even in late summer.

You will still be able to immerse yourself in the crystal clear waters of Sicily and look for flavors and traditions in this historical land.

On the east coast there are cities like Taormina and Catania which, due to their particular temperature range, are hot in summer, but still very enjoyable in September.

The competition, with the expected attendance of many male and female teams from all over Europe, will be a much anticipated rendez-vous for Canoe Polo.

Port of Catania will welcome both athletes and fans.

The Etna volcano will make the scenario magic and will look at us peacefully.

The Official European Club crown for Senior Male and Female categories will be awarded.

A non-official International Tournament for Clubs for the first U18 two teams in the regular season of their respective Nations will take place , too.

The Jomar Club Catania has already organized three editions of the Ionian International Tournament.

The last one in 2016 just before the Syracuse World Championships, with over 20 National teams attending .

In 2017 Port of Catania hosted the National Senior Playoff tournament , Under18 and Under14 , with great success in terms of entertainment.
